

VeloCorral

VeloCorral is a modular, customisable parking corral for hire bike and shared mobility schemes.

Designed to bring order to public hire bike parking, VeloCorral creates a clear, contained and professional parking area that helps reduce pavement clutter, improve accessibility and support safer public spaces.

The system is fully modular, available in a range of colours, and can be supplied with custom branding boards to suit local authorities, operators or specific project requirements. By giving hire bikes a dedicated place to be parked, VeloCorral helps make shared mobility schemes cleaner, safer and easier to manage.

Containing hire bikes within a dedicated corral can help improve safety and accessibility by reducing the risk of bikes being left in unsuitable locations.

A well-positioned VeloCorral can:

- Keep pedestrian routes clearer
- Reduce trip hazards from poorly parked bikes
- Help protect access to crossings, doorways, bus stops and tactile paving
- Make hire bike parking more predictable and easier to manage
- Reduce visual clutter in busy public spaces
- Help prevent bikes being knocked over, damaged or abandoned

By giving users a clear and obvious place to park, VeloCorral supports better behaviour and makes the scheme easier for the public to understand. It also gives operators a more controlled area for collection, redistribution, maintenance and monitoring.

The standard **4.5m VeloCorral** includes **18 points of reflective marking**, helping to improve visibility for pedestrians, cyclists, motorists and maintenance teams, particularly in low-light conditions or busy streetscape environments. These reflective details help define the footprint of the corral and make the parking area more noticeable within the public realm, supporting safer movement around the installation. For locations where additional visibility or protection is required, **reflective bollards are also available as an optional extra**, providing a stronger visual boundary and helping to further protect the corral, the parked hire bikes and surrounding users.

VeloCorral

Customisation

Available in a range of 16 colours, and with custom branding boards available, VeloCorral can be tailored to suit local authority branding, operator branding or site-specific design requirements. This means the infrastructure can feel integrated into the surrounding environment while still clearly identifying the space as a dedicated hire bike parking area.

Powder coating options.

As standard we offer 16 different colours on the VeloCorral.

Black RAL : 9005 Standard

Yellow RAL:1023 Standard

All other colours can require slightly longer lead times.

Branding Boards

Available in either our standard artwork or customers branding.

Black RAL: 9005	White RAL: 9003	Dark Grey RAL: 7016	Grey RAL: 7012	Textured Grey RAL: 8016	Textured Black RAL: 9005	Blue RAL: 5002	Green RAL: 6007
Red RAL: 3005	Pink RAL: 4010	Yellow RAL: 1023	Peach RAL: 3012	Gold RAL: 1036	Speckled Gold	Speckled Copper	Speckled Silver

VeloCorral

Installation

The VeloCorral can be installed on any firm, level hardstanding such as tarmac, concrete, or concrete slabs. A stable, continuous base is essential for correct commissioning, long-term performance, and safe daily use.

When using the unit in the road, it can be placed with either the opening towards the road or path as desired.

Units are unloaded and assembled on site.

Access must be clear for unloading

VeloCorral is secured in place with concrete security fittings.

The VeloCorral is available in two standard sizes to suit different hire bike scheme requirements.

The 4.5m (1 Parking Space) unit is ideal for smaller locations, trial schemes, tighter spaces or areas where a compact but clearly defined parking zone is needed. For higher-demand locations, the 9.5m (2 Parking Spaces) unit provides increased capacity while keeping hire bikes contained, organised and easy to access.

Both sizes use the same modular system, meaning they can be adapted to suit the site layout, branding requirements, colour preferences and operational needs of the scheme.

Warranty

Grease Monkey warrants our Veloboxes, bike shelters, bike racks and bike repair stations to the original Purchaser to be free from defects in material, structural integrity and workmanship within a 10 year period from the date of delivery and/or installation and will perform in accordance with provided original operation instructions if properly installed, used and cared for.

Terms of Warranty

This warranty policy does not cover, and Grease Monkey shall not be liable for:

- Normal wear and tear
- Acts of nature, including but not limited to, earthquakes, floods, and hurricanes
- Misuse, abuse, vehicle collision or negligence
- Modification, alteration, or repair by unauthorised personnel
- Failure to follow the Product's assembly, installation, or maintenance instructions

Any product verified to be defective within the warranty period shall upon prompt notice by its Purchaser to our Customer Service Department, be either replaced or repaired at our sole discretion. Any warranty claim will not be processed without authorisation from customer service, a copy of the original invoice documenting date of purchase and/or installation and evidence that the unit has been maintained in accordance to provided guidelines. The Purchaser is responsible for all costs involved in sending any defective parts back to Grease Monkey and/or any call-out or labour costs related to a warranted repair. Grease Monkey may reimburse these costs as part of the warranty claim at our sole discretion. Warranty related enquiries should be addressed to the following email: info@greasemonkey.cc

Care/Maintenance Plan

This Plan is a service provided by Grease Monkey which can be purchased as an addition to what is covered by the warranty policy. This plan provides additional cover which includes:

- Maintenance visits where units are cleaned, serviced and repaired where necessary.
- Free replacement of damaged parts covered by warranty
- Any damage outside the warranty coverage will be repaired at a discounted rate.
- Ensures proper care of unit in line with the terms of warranty

Coverage starts from the date of delivery and all enquiries must be carried out through our Customer Service Department. Any claims will not be processed without authorisation from customer service, a copy of the original invoice documenting purchase of the care plan and delivery date. The Purchaser is responsible for all costs involved in sending any defective parts back to Grease Monkey and/or any call-out or labour costs related to a warranted repair. Grease Monkey may reimburse these costs fully or partially in conjunction with warranty and care plan cover at our sole discretion.
